172-B, Max Mueller Marg, Lodi Estate, New Delhi - 110 003		

**Year of Establishment** : **1984**

### **About Host Organisation**

WWF-India was established as a charitable Trust in 1969. It is the largest and one of the most experienced conservation organizations in the country. It is not only the country's largest voluntary body in the field of conservation, it has also grown into a network with a countrywide presence. It has taken on diverse activities in the field of nature protection-ranging from education and capacity building, to field projects in biodiversity, to enviro-legal action, to policy studies and advocacy, to even areas such as religion and conservation.

### **Activities of the Centre**

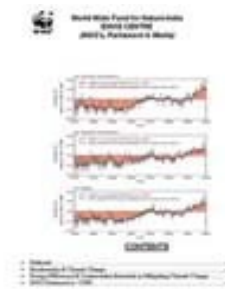

The Centre has compiled information on the Environmental NGO's in India, Audiovisuals on the Environment, Expertise in the Environmental Sciences, Pollution Monitoring Facilities & Campaign support Services available with NGO's & Environment in the Indian Parliament. Data relating to environmental

NGOs, Parliamentary questions and media clippings are stored in computerized databases. The parliamentary questions from both Lok Sabha and Rajya Sabha related to environmental matters for the calendar year 2000-2001 have been compiled subject wise and are stored in the computerized database. Apart from this, the data for the year 2002 is also being compiled. Under Media and Environment, the Centre is continuing the monitoring & classification of environment related news & feature items in the print media. The task of revising the Environmental NGOs database was stored in early 2002. Questionnaires were prepared for distribution to NGOs across the country. A digital map of Delhi was prepared which was integrated with a database of 270 NGOs in using GIS technology.

## Services

### ○ **Query Answer Services**

- ◆ The center with the help of WWF-India Communication Division provide information support to media professionals on specific environmental issues. The Centre makes regular responses to various national and international queries on the subject area. Average number of queries handled per year are 350.

## WWF Website (<http://www.wwfenvis.org>)

- The ENVIS Centre site on Non-Government Organisations Media and Parliament Matter Related to Environment features the introduction and objective of the Centre. The News items are collated from different sources. Gist of different cases pertaining to environment have been called out from national level newspapers and put up under the Case Studies section. It also features cases pending with different courts and summaries of landmark cases in environment. Media reports on different aspects of environment have also been put up as a different section. The Event section lists all the environment-related events happening in India and abroad. The Newsletter is also made online. The site has database on list of NGOs working on environment, nature protection and sustainable development and on questions raised in Lok Sabha and Rajya Sabha on environment and sustainable development issues.

## Future Plans

- Production of a monthly media reports newsletter
- Subject wise detailed database and State specific Case Studies/issues relevant for Indian Parliament to be uploaded in the website
- Information dissemination on Parliaments of the world and role of environment
- Production of CD-ROMs of NGO Directory and Query based database on NGOs and Parliament based questions (Lok Sabha & Rajya Sabha) subjectwise.
- A proposal to develop digital maps of selected areas of the country linked with a NGO database will be submitted for future work to the MoEF.
