*The matter was last discussed in 143<sup>rd</sup> meeting of EC and the EC noted that on the one hand the Ministry is promoting imports of critical materials and on the other hand this is likely export of critical material though in the form of unprocessed battery waste, the committee wanted to understand why the applicant is not trying to use local recycling facilities which are available. Further, data/information could not become available as the applicant again is not present during the meeting. Therefore, Committee deferred the matter again and recommended to give last opportunity to applicant to be present in the next meeting for discussion on their proposal. The applicant has mentioned that there are currently no facilities in India capable of recycling primary UN3090 Lithium Metal Batteries and UN3091 Lithium Metal Batteries in Equipment. Therefore, the batteries will be exported to Cirba Solutions Canada ULC which is a licensed recycling facility in Canada capable of recycling the batteries. Supporting documents for Cirba Solutions Canada ULC are attached.*
